Progressive Education Society'sModern College of Engineering, Pune-05.(An Autonomous Institute Affiliated to Savitribai Phule Pune University) Department of S.Y. B. Tech [AIDS]

Assignment No: 07

SUBJECT: Java Programming

Name: Om Mane

Class: SY BTech (AIDS)

Section: A

Roll Number: 26040

Title / Problem Statement :

Write a program to implement two threads: one thread prints even numbers, and the other prints odd numbers.

Input :
```
// Even Thread
```

```java
class EvenThread extends Thread {
    public void run() {
        for (int i = 1; i <= 10; i++) {
            if (i % 2 == 0) {
                System.out.println("Even: " + i);
            }
        }
    }
}

// Odd Thread
class OddThread extends Thread {
    public void run() {
        for (int i = 1; i <= 10; i++) {
            if (i % 2 != 0) {
                System.out.println("Odd: " + i);
            }
        }
    }
}

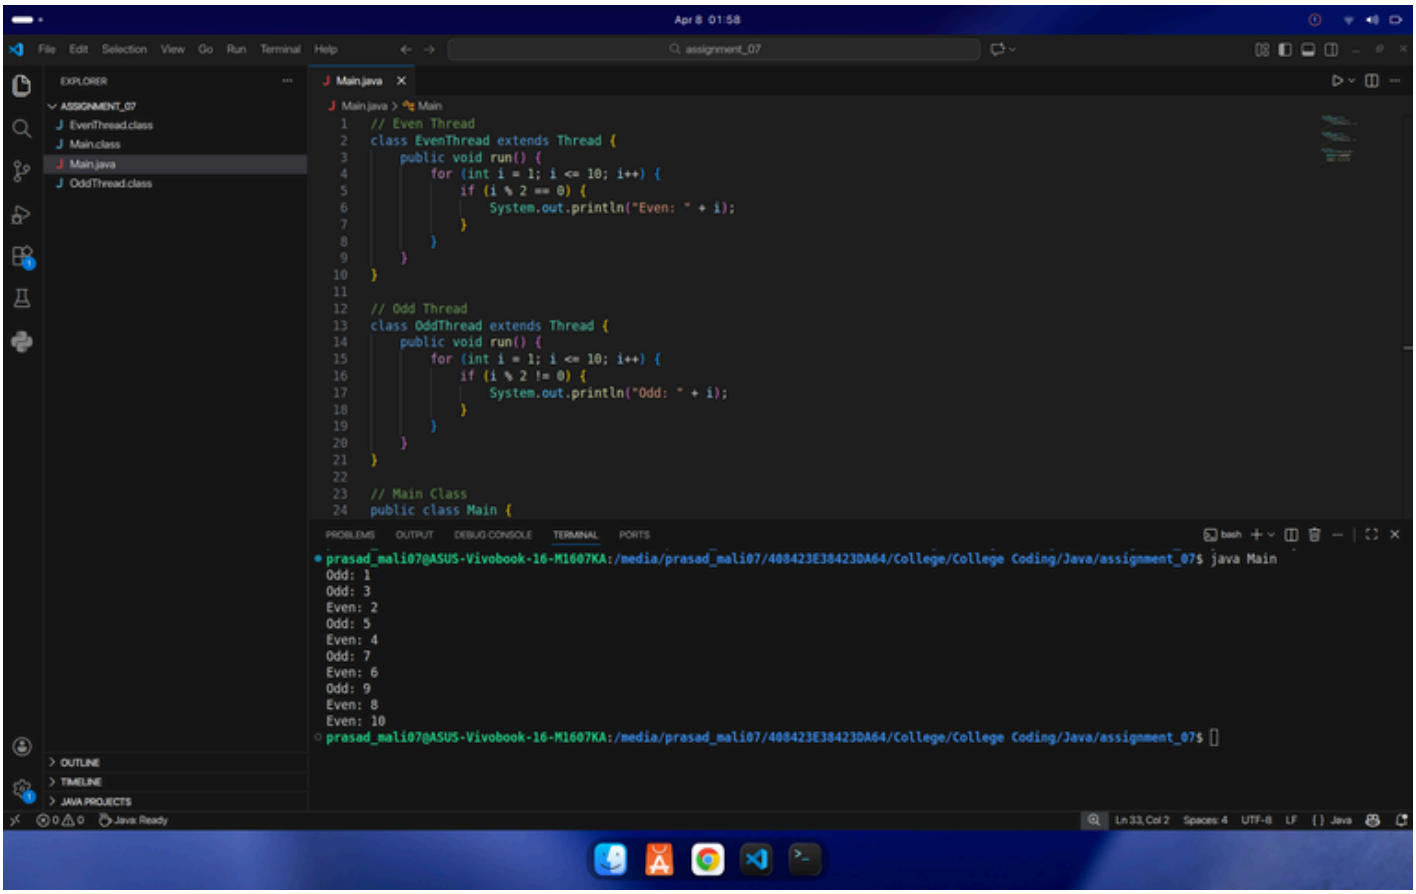
// Main Class
public class Main {
    public static void main(String[] args) {

        EvenThread t1 = new EvenThread();
        OddThread t2 = new OddThread();
```

```
        t1.start(); // start even thread

        t2.start(); // start odd thread

    }

}
```


Output :
